## PREFACE

The Publishers in presenting their seventh edition of the TOWN OF LINDSAY directory, thank the citizens in general for the liberal support and co-operation given.

For the fifth time, postal codes have been included in the street directory (pink section). They are prominently located after each street intersection description and shown in italics.

This year once again the names are listed in order of telephone numbers. This Numerical Telephone Directory is printed on blue paper and we feel that it will greatly increase the usefulness of the directory to our subscribers. Telephone numbers are also listed by house address in the Street Directory.

Our estimate of the population of the Town of Lindsay and the outskirts, is 15,000.

## POINTS OF INTEREST

**Champlain's Portage**—Highway 48 is Portage Rd. from Bolsover through Kirkfield. Champlain's party, including Etienne Brule, took this route while exploring in 1615.

**Old Monck Road**—was built as a military road after the war of 1812-14 to provide an overland route from the Ottawa River to Lake Simcoe and Old Yonge St. You may travel from Kinmount to Sebright on it. (Now Hwy. 503).

**Lift Locks**—at Kirkfield, where a boat may be safely lifted 48½ feet to continue on the Trent Waterway System.

**Falls at Fenelon Falls**—named after a Suplician missionary, first settled in 1841.

**McDonnell Park, Lindsay**—here a plaque commemorates the founding of Lindsay by William Purdy and his sons who built a saw and grist mill on the Scugog River in 1828. Also located in McDonnell Park, near the Royal Canadian Legion, a commemorative plaque, set in a stone, commemorating the naming of the town of Lindsay.

**125 year old church**—at Fenelon Falls over 125 years ago an Anglican Church was built.

**Historical plaques at Fenelon Falls**—dedicated to James Wallis who in 1834, with Robert Jameson, built a sawmill and later a grist mill where Fenelon Falls stands today. About the same time John Langton built Blythe House near Fenelon Falls.

**Sturdy Sycamore Trees**—In Lindsay are the only Sycamores growing this far north in all of North America.

**Reforestation**—of interest to the conservationist is County Reforestation taking place in Somerville, Laxton and Emily Townships.

**Bobcaygeon**—Monument commemorating the construction of the first Bobcaygeon Lock in 1839.

**County of Victoria Museum in Lindsay, and a municipal museum at Fenelon Falls.** A good collection of pioneer tools and furniture gathered in their vicinity.

**Parks**—There is an excellent Provincial Park at Omemee, and also between Kirkfield and Coboconk, a County of Victoria Park near Bolsover, another park in Mariposa and both park and pool in Verulam Township. Near Fenelon Falls on Cameron Lake is another pleasant Tourist park. Lindsay has approximately 18 parks to picnic and play in. There is also a public park at Coboconk.

**Landing fields for light aircraft at Lindsay and Bobcaygeon**—Lindsay airport with paved runway and night lights . . . can service up to DC 3 size.

# VICTORIA COUNTY

In the part of Ontario known as the Kawartha Lakes, you will find the history and romance of nearly 350 years of Canada.

Samuel de Champlain first discovered its beauty in 1615, when the Courier de Bois portaged through its dense forests and paddled and fished its lakes and streams.

Victoria County is still richly endowed with nature's most precious gifts — a year round playground with picturesque lakes and woodlands, rolling hills, farm country and sunny beaches.

*A place to play only hours away*

Victoria County is accessible from east or west by Highway No. 7 which can be reached from Highway No. 401 or Highway No. 12 at Whitby or Highway No. 35 which travels the length of the county from Newcastle on Lake Ontario in the south to Haliburton and Lake of Bays in the north.

## EXPLANATION

1. The Christian name appearing alone in brackets is the name of spouse.
2. In some cases the designation, widow, has been omitted by request.
3. Names in bold print are those of firms which subscribe to or advertise in this City Directory. Names in capital letters are those of proprietors, partners or executives of these firms.
4. Business firms which are individual proprietorships or partnerships are indicated by listing the names of the owner or partners in brackets: Plaza Groceries (John B. Scott, Wm. Noble). Conversely, a firm name in brackets after an individual's name indicates that he is an owner or partner in the firm.
5. The householder or head of the house (owner or tenant) is indicated by h preceding the street address. Other members of the family, roomers and boarders do not have this designation. To determine whether the householder is owner or tenant, refer to the pink section, where home ownership is indicated by an asterisk (\*).
6. The information in this directory has been gathered from original sources and the Publishers have made every effort to ensure completeness and accuracy. They cannot guarantee the complete absence of errors and assume no responsibility therefor. # *ARE YOU GETTING YOURS?*

This is the time of the turtle. This little animal has survived the primordial world for 200 million years and may well plod on long after whales and human beings have vanished. The turtle has been a paragon of adaptability, having had a successful response for every new predator or environmental gangster. It's the perfect animal emblem for the survival oriented conservatism now creeping across the land. Slow starters and trusty haulers are in demand. Remember what happened to the hare?

Your City Directory can help you and your company become an evolutionary champ like the turtle, using properly verified information about carefully selected clients. You can achieve a higher closing / interview ratio, at a minimal amount of time and travelling expense. A current City Directory should be the backbone of every business. Don't make a move without it!

## Interruptions . . .

*When you are exasperated by interruptions, try to remember that their very frequency may indicate the valuableness of your life. Only the people who are full of help and strength are burdened by other people's needs. The interruptions which you tolerate are the credentials of your indispensability. The greatest condemnation that anybody could incur — and it is a danger to guard against — is to be so independent, so unhelpful, that nobody ever interrupts you, and you are left comfortably alone.*

## Most Frequently Used Phone Numbers

# “YOUR AD”

## WILL MAKE THE DIFFERENCE

A lawyer specializing in consumer causes for the state of Connecticut has asked the telephone company to scramble its Yellow Pages on the grounds that they're unfair.

He claims that the Yellow Pages mislead people. When they're looking for a plumber, say, they start with the A's, even though better plumbers may be buried in the H's or W's. This means that businesses and services at the beginning of the alphabet have an edge. In other words, the A's have it over all the rest.

The lawyer's remedy is to have the telephone company print half the subject listings in the Yellow Pages in alphabetical order and half in reverse alphabetical order. Half would start with A and half with Z. Either way, of course, the M's and N's would be stuck in the middle.

Is there any justice? Why not start the first business listing with the A's the second with the B's the third with the C's, and so on until every letter has a turn at the top?

Incidentally, the lawyer's name is Zitser.

**Advertising should be stopped —**

When you expect to go out of business.

When there is nothing about your business that people ought to know.

When you don't want new customers.

When people never become dissatisfied with one firm and go to another.

When the public stops being born, stops dying, stops forgetting.

**In other words when a firm is coasting it's generally going down hill.**

When a young advertising salesman suggested to a small town hotel proprietor he begin a schedule of Display Ads aimed at Local Patrons, he agreed that the suggestion had merit. He felt however that he could not afford large enough Ads and stated "Nobody Reads Small Ads."

The Adman disagreed and was so sure of his service that he offered to run a series of one inch Ads free of charge providing that he could write the copy. The innkeeper thought this request was reasonable and responded with an "O.K., but what are you going to say in my Ads?"

"Nine Words," said the salesman. "It will read: The Motor Hotel Has The Biggest Bedbugs In Town."

The hotelman shouted, "You'll drive me out of business!"

"But Sir!" said the salesman, "You said no one ever reads small ads."

\*\*\*

People do read small ads. Many a large business started with small ads, and only because the Small Ads produced results were they able to become Big Advertisers. Don't put off telling people about your Products and Services just because you can't compete Size-Wise with large businesses. Discuss it with our representative. He'll have some good ideas for you.

## ***Lack of advertising... beneficial to some!***

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.
